THE BOGGS FAMILY AND ITS NAME.

The name of "Boggs" is said to have been of local origin and derived from the residence of its first bearer at or near a "bog", or swamp. It is found on ancient records in the various forms of Bog, Bogg, Boggis, Boggies, Boggles, Boggles, Bogs, and Boges, of which, the last is the generally accepted form in America today.

Families bearing this name were to be found at early dates in the English counties of Somerset, Lincoln, Cumberland, London, and Cornhill, as well as in various parts of Scotland, and were, for the most part, of the landed gentry and yeomanry of Great Britain.

Among the earliest records of the name in England, Robert/Boggs, were those of John atte Bogge, Robert Bogg, and Nicholas Boggies of Somersetshire in the time of King Edward the 1st of England, Humphrey Bogg of Lincolnshire in 1602, and Nathaniel or Nathaniel, son of John Boggies, of Cornhill in 1637.

One large branch of the family was also settled in Scotland at an early date and, owing to the religious persecutions of the 16th and 17th centuries, many of its members fled to Ireland, where one family was settled at Londonderry and another at Noville, County Donegal.

It is not definitely known from which of the many illustrious lines of the family in England the first emigrants of the name to America were descended, but it is thought probable that they were descendants of the Scotch-Irish branches of the family. It is also believed that most, if not all, of the families of the name of Boggs were of common ancestry at a remote period.

Among the first of the name in America were Williston, John, and George Boggs, probably brothers, who are said to have come from Ireland to New England at an early date and settled in Maine. These three emigrants are said to have been the ancestors of all of the Maine families of the name and many others as well, although the records of their immediate families are not given.

One Ezekial Boggs, who is said to have been born in the North of Ireland in the early 18th century and to have married Eliz. Baird of Ulster prior to the year of 1739, is believed to have emigrated to America about 1741. He made his home in Newcastle County, Del., and there raised his children, Rebecca and James, and probably others.

Dr. James, son of the emigrant Ezekial, resided for a time at Newcastle and later at Shewsbury, N.J. He was a loyalist and served as Surgeon's Mate to the British in the Revolutionary War. By his wife, Mary Morris, whom he married in 1765, he was the father of Robert, Elizabeth, James, Thomas, Rebecca, Charles, Daniel (died unmarried), and Mary, of whom, all but the sons, Robert and James, removed with their parents to Nova Scotia.

Robert, oldest son of Dr. James, resided at various times at Eatontown and New Brunswick, N.J., and was married three times. By his first wife, Mary Morris, whom he married in 1795, he had issue of Robert, James, and possibly others, of whom the last mentioned died young. In 1802 Robert married a second wife, Mary Lawrence, who gave him 5 children, Lucy, John, James, (died in infancy), James, and Mary. His third wife (widow of) Maria Allen (nee Brenton) Stewart, whom he married in 1817, is said to have given him no further issue.

James, second son of Dr. James, resided first at Newbury, N.H. and later at Philadelphia and New York City, where he became the president of the New York Mfg. Co. Bank, which was established in 1812. By his wife, Sarah Lloyd Broome, whom he married in 1836, he was the father of Mary, Rebecca, John, George Samuel, William Augusta, and three others who died in infancy.

The descendants of these and probably of other branches of the family in America have spread to practically all parts of the Union and have aided as much in the growth of the country as their ancestors aided in the founding of the nation. They were noted for their courage, energy, ambition, industry, integrity, piety, patience, moral and physical strength, determination, fortitude, resourcefulness, and power of will.

(My personal feeling here is that the family just wanted our family to feel persecuted for being the 1st !)

Among them of the name who fought at the battle of the Revolution was Lieut. Andrew Boggs of the Pennsylvania Flving Camp, who was wounded at Germantown in 1776. There were also numerous others of the name among soldiers from the various New England and Southern colonies.

John, William, James, Robert, George, Samuel, William, George, Andrew and Charles are a few of the names of the most highly favored by the family for its male members.

Two of the many members of the family who have distinguished themselves in America in more recent times were William Stewart Boggs of New Jersey, naval officer, living from 1811 to 1898, and Frank Myers Boggs of Ohio, noted artist, born in 1866 and died in 1926 in France.

One of the most ancient and frequently recurrent of the several coats-of-arms of the English family of ~~the~~ Boggs is described as follows:

Arms-- "Argent, a fess sable, on each point a cross crosslet fitchy of the first"

(Arms taken from Burke's 'Encyclopedia of Heraldry', 1851)

Clark was a great reader. He was not too old to learn.

Memphis 7-4-1957 to

born 2-1-18

William bought a tract of land of about 3000 acres, now 45 miles north of Indianapolis, Ind. He was the original owner of this land from the government. He was a very hard worker, a successful farmer, shrewd money lender, government contractor (his farm kitchen was the P.O., had a grocery store in the corner of his yard, and a blacksmith shop near his house. In many ways a genuine pioneer. At his death he was a wealthy man, worth probably \$150,000 dollars. I helped to execute his estate and discovered some 400 men in three counties who owed him various sums of money. In 1861 he put out a notice unlawful at the time, he never contributed to charity, nor did any one for the Church as his Father had had. He never drank nor and tobacco until his 5th year, and never after that time. He held stock in the Clinton County Bank and Clinton County Fair Assoc. He was a man of very few words and never indulged in jokes nor smutty stories. I never heard him let out a real "belly laugh" at any time.

In his will, he left all the farms and all the timber on 4 large tracts of land to his grandchildren (not to his sons), as his sons were addicted to an over-dose of liquor.

accomplish a great deal. The one and only time that I saw and heard her, Thomas had built an aluminum frame built on small wheels, and it fitted under her full floor-length dress. He could thus "walk her" out on the stage for her performance. This occasion was at a musical recital here in Indianapolis at the Jordan College of Music. Death due to diphtheria. In 1902 doctors were just beginning to administer anti-toxin for this malady, and Dr. Jenkins of Terre Haute, Ind. used it wrongly -- either too late, or too much -- and even though the throat cleared quickly from the toxin, the little fellow began to grow cold beginning in the feet and extending gradually till it reached his head, and he passed away as I held him in my arms.

She was nominated for Phi Beta Kappa, and taught in a high school for a short time before getting married.

Norman proved to be an "Alger story" -- entered the business world of radio advertising. In his senior year in the Univ. of Ill. he became disgusted with the kind of "stuff" the Univ. was teaching, and went to work.

He began in 1924 with the Drovers' Journal, station WAFB, and in 5 years he was made general manager. Then he joined WGN in Chicago as a solicitor of advertising, and at the end of three years, he secured more advertising money for WGN than any other of the dozen solicitors. Then Col. Bob McCormack (owner of the Chicago Tribune, and WGN) sent Norman to New York in charge of the office. After a few years in N.Y. Norman was returned to Chicago as Gen. Manager of WGN. Shortly thereafter, Mr. Atlas of Minneapolis, induced Norman to come to WLOL and become vice Pres. and Gen. Mng. His salary at WLOL the first year was \$60,000. After a few years with WLOL, Nathan Strauss of N.Y. wanted a man to come to N.Y. and take charge of WMCA (a station that was losing thousands of money) and in three months time Norman had his business in the "black". Then, finally, the Don Lee Mutual of California took charge out there as vice Pres. in charge of all stations.

Sometime in late 1930 or early 1931, Norman purchased WJLB

at Chicago and kept it for a while, but later sold it to the

Jan. 18, 1940

Dear Cousin Boggs:

Many thanks for sending me your elaborate genealogical notes, which came just before I left town for Cambridge, Mass.

I no sooner got back in January than we had to begin to prepare for the end of the first XXXXX semester of the school year, which is only now ending.

However, most of my examinations are over, so I will have to give one more, next Sunday. But I did not wish to lose the valuable notes you lent me any longer, so I hasten to return them enclosed here with this letter, and I thank you very much for sending them.

I have looked them over, and made some notes, particularly on the earlier part, since the latter part tends bulk of your notes seem to deal with your own particular branch of the family, which appears to be different from mine.

With the notes you sent, and some I already had, I seem to have considerable material on generalities of the early phase of our family's history, when they settled in this country in the 18th century. But I have not been able to trace back in a definite line my own particular branch of the family any farther than my grandfather, John W. Boggs. I just have the name of his father: Mathew L., and there my trail gives out, and I have been unable to hook it up with anything earlier, in a direct line. Maybe someday I will. Apparently they came out from Pennsylvania through Ohio, but the track is dim.

Pardon this haste, and thanks again.
